EMPLOYEMENT OBJECTIVE

To work in a challenging, exciting, and dynamic position that provides me with the opportunity to grow in my software development and business skills through my passion for and understanding of computer technology, marketing, and business management.

SUMMARY OF QUALIFICATIONS

- Self motivated to develop current understanding of software development and to effectively use new software applications and other technologies to create enhanced programs and online experiences.
- Able to learn new software tools and programming languages quickly by transferring knowledge, experience, and methodologies from past projects.
- Extremely organized due to developed scheduling and time management skills, which leads to the ability to handle multiple projects simultaneously.
- Able to analytically solve problems with Polya's four step problem solving process.

TECHNICAL SUMMARY

- University level understanding of object oriented programming, Java, HTML, CSS, ASP.NET, C#, PHP, JavaScript, WordPress, MySQL, multi-layered server-side web applications, systems analysis, operating systems, databases, management, marketing, and communications.
- Industry experience with HTML, CSS, Grails, Groovy, Git version control, jQuery, Content Management Systems, Model View Controller, and more.
- Microsoft Office Suite aptitude with Word, PowerPoint, and Excel.
- Broad experience using Windows (XP, Vista, 7, 8) and Mac OS X.

RELEVANT WORK EXPERIENCE
